

Coronavirus disease (COVID-19)

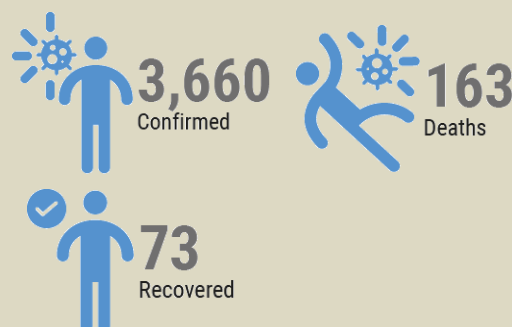

Situation Report 15 Philippines 6 April 2020

Data reported by the Department of Health on 6 April 2020

Highlights

- **Out of the total 3,660 confirmed cases reported in the Philippines until today, 60% are male, with the most affected age group is 60-69 years (22.4%)**
- **54% of all cases reported from National Capital Region (NCR), followed by CALABARZON (7%) and Central Luzon (3.3%). To prevent further spread of the disease, Rizal province (CALABARZON) added additional restrictions on top of the enhanced community quarantine.**
- **Out of the 163 confirmed deaths, 66% are reported from NCR, 67% are male, with ages ranging from 7 to 90, and the median age being 65.**
- **So far, among over 2,000 UN staff members in the Philippines, 9 have tested positive: 7 from WHO and 2 from IOM**
- **Currently 10 laboratories capable of conducting COVID-19 testing, with an additional 69 laboratories yet to be assessed.**
- **Department of Health (DOH) and Office of Civil Defence distributing Personal Protection Equipment (PPE) to priority hospitals, with more PPE expected soon**
- **Online IPC trainings kicked off for both private and public hospitals and community health workers**
- **Government in the process of preparing large-scale quarantine facilities, while Local Government Units (LGU) with support from NGOs and private sector are setting up community isolation centres.**

Country readiness and response operations

Country-level coordination

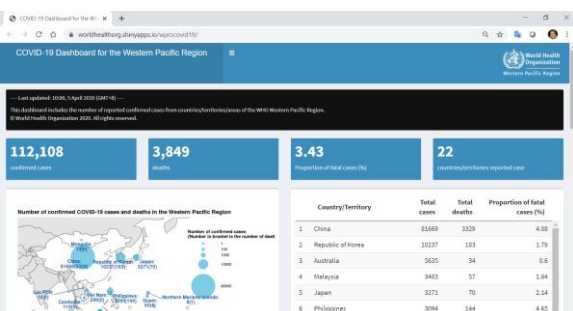

The Humanitarian Country Team (HCT) COVID-19 Response Plan was finalized and broadly shared. The plan details how relevant clusters will complement ongoing response interventions to the COVID-19 outbreak in the Philippines from March to June 2020, with a primary focus on access to health care for vulnerable groups. The plan is budgeted at 90 million USD, out of which 50 million for health activities. The health cluster encompasses all relevant sector including WASH, nutrition, sexual reproductive health, and Mental Health and Psychosocial Support (MHPSS). The plan can be downloaded at <https://reliefweb.int/report/philippines/philippines-covid-19-response-plan-03-april-2020>.

All relevant government guidelines, issuances, and documents available online at bit.ly/COVIDPH.

Risk communication and community engagement

MSF is supporting with risk communication through its Filipino partner Likhaan in Tondo (Manila) and the City Health Office of Marawi (Bangsamoro Autonomous Region in Muslim Mindanao or BARMM). In Marawi, MSF is also supporting with contact tracing and surveillance.

The USAID-funded Breakthrough Action program has been supporting DOH Health Promotion Bureau with a dedicated Facebook site <https://www.facebook.com/DOHhealthypilipinas> as well as a website where all relevant IEC materials on COVID-19 have been made available: <http://dohhealthpromotion.ph/>

Surveillance

DOH has made a dashboard available with analysis of COVID-19 data, which is updated on a daily basis bit.ly/COVID19PHdashboard.

The WHO Regional Office for the Western Pacific also made a dashboard available with data on COVID-19 from all countries in the region, including the Philippines <https://worldhealthorg.shinyapps.io/wprocovid19/>

National laboratory system

There are currently 10 laboratories capable of conducting COVID-19 testing, with an additional 69 laboratories yet to be assessed. Total number of tests today is on average 1,700.

Laboratory	Daily testing capacity
1. Research Institute for Tropical Medicine (RITM)	900
2. Vicente Sotto Memorial Medical Centre (Cebu)	240
3. Baguio General Hospital and Medical Centre (Baguio)	150
4. Southern Philippines Medical Centre (Davao)	100
5. Lung centre of the Philippines (Quezon City)	100
6. San Lazaro Hospital (Manila)	60-100
7. Western Visayas Medical Centre (Iloilo)	80
8. University of the Philippines National Institute for Health (Manila)	80
9. Bicol Public Health Laboratory (Bicol)	
10. St Luke's Medical Centre (Quezon City)	

Infection prevention and control

The USAID-funded Medicines, Technologies, and Pharmaceutical Services (MTaPS) program started conducting online IPC trainings for hospital workers on Mondays and Wednesdays for the month of April.

UNICEF started rolling out of IPC in community settings in coordination with Centers for Health Development of NCR, Regions 3, 4A and BARMM.

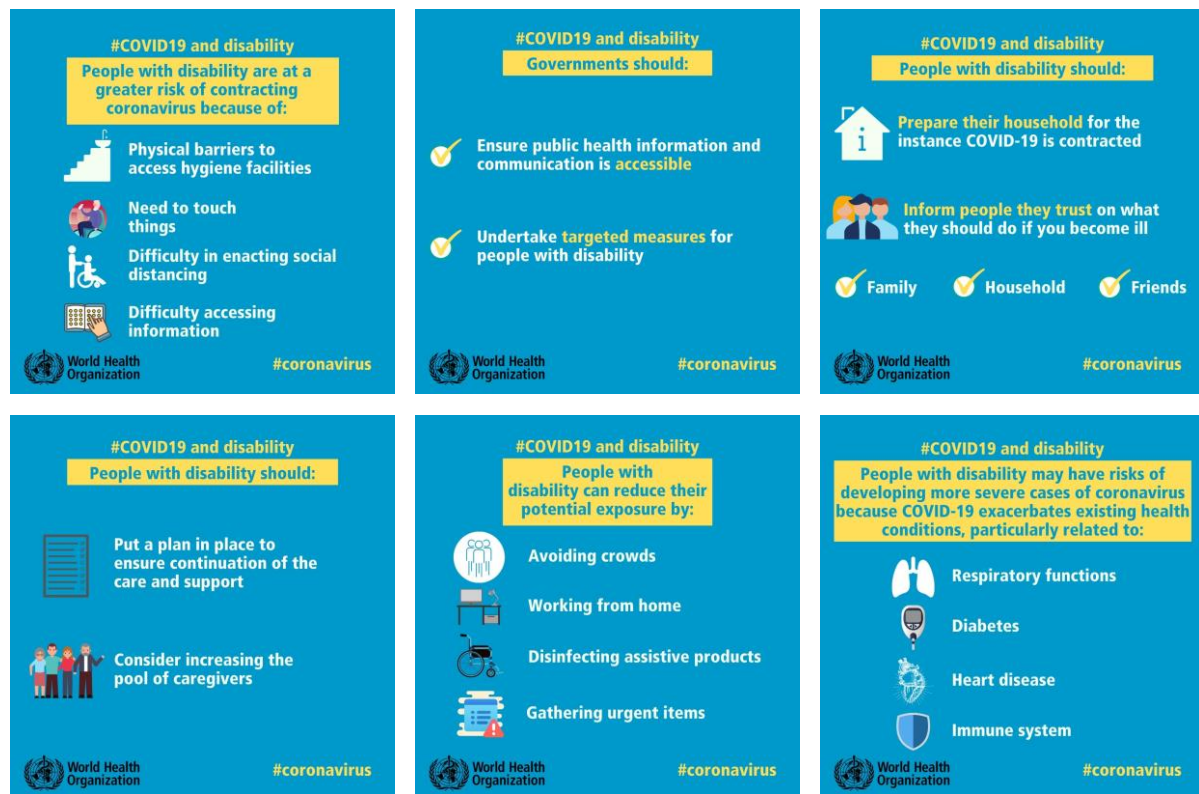

Case management and continuity of essential services

The Philippine Red Cross deployed 2 medical tents at the National Kidney and Transplant Institute, one for Persons Under Investigation and one for dialysis patients.

WHO released new guidance on disability considerations during the COVID-19 outbreak:
