

# Coronavirus disease (COVID-19)

## Situation Report 31 Philippines 13 May 2020

Data reported by the Department of Health on 13 May 2020

### Highlights

- **Out of the total 11,618 confirmed cases reported in the Philippines until today, 54% are male, with the most affected age group 30-39 years (21.2%) followed by 20-29 (16.9%)**
- **64.2% of cases reported from National Capital Region (NCR), followed by Central Visayas (14.8%), CALABARZON (11.7%), and Central Luzon (3.6%)**
- **Out of the 772 confirmed deaths, 65% are male, with the most affected age group over 70 years (36.2%) followed by 60-69 years (31.7%)**
- **71.8% of deaths reported from NCR, followed by CALABARZON (12.0%), Central Luzon (3.7%), and Central Visayas (3.7%)**
- **Extension of modified enhanced community quarantine in NCR, Laguna and Cebu City until 31 May 2020 due to 'high-risk' of COVID-19 spread. Rest of the country has been divided into 'moderate risk' to be put under general community quarantine after 15 May (Region II, III, IV-A except Laguna, CAR, VII except Cebu, IX, XI, and XIII) and 'low-risk' to maintain minimum health standards (Region I, IV-B, V, VI, VIII, X, XII, and BARMM).**
- **According to the Department of Health (DOH) among all confirmed cases, 88.59% are mild**
- **Currently 28 laboratories accredited for COVID-19 testing with PCR. Latest additions: Asian Hospital and Medical Centre in Alabang, Muntinlupa and the Allegiant Regional Care Hospital in Lapu-Lapu City, Cebu. In addition, 5 GeneXpert machines currently accredited for COVID-19 testing**
- **Tropical Storm Ambo approaching the country from the East**

### PHILIPPINES SITUATION IN NUMBERS

### Beat COVID-19 Today

A COVID-19 Philippine Situationer

Issue 16 | May 13, 2020

#### Highlights and Recent Updates on COVID-19

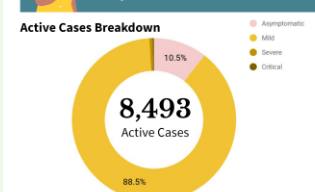

- DOH recorded **8,493 active cases** as of May 12, with the majority of the patients exhibiting **mild symptoms** (7,520, 88.5%).
- A total of **2,125 (19% of all cases)** healthcare workers are affected by COVID-19, with 669 recoveries and 35 deaths.
- As of May 11, **77 health facilities** have requested for additional healthcare workers under the DOH's emergency hiring program.
- DOH has now approved **4,003 slots** for hiring on 62 hospitals, quarantine facilities managed by BOQ, Philippine Arena COVID-19 Facility and Quezon Institute Temporary Quarantine Facility.
- As of reporting, a total of **1,237 personnel** have been hired for 11 hospitals and quarantine facilities. DOH has redeployed **747 nurses** under the Nurse Deployment Program (162 nurses in Luzon and 585 in Visayas and Mindanao) in DOH and LGU hospitals catering COVID cases.
- DOH encourages the public to embrace the New Normal setting in their everyday lives. In this renewed consciousness, the public needs to keep in mind that their practices and behaviors should lead to improved health. In relation to this, minimum health standards in public transportation are essential to keep everyone healthy and safe. Keeping a safe distance from the other commuters and wearing of face mask should always be observed.
- In light of the celebration of Nurse's Day (May 12), DOH appealed to the public to recognize the efforts and sacrifices of nurses fighting against COVID-19.

#### Case Summary As of May 12, 2020

<b>11,350</b> Total Cases	<b>11,086</b> Previous day	<b>264</b> Additional Cases
------------------------------	-------------------------------	--------------------------------

<b>2,106</b> Recoveries	<b>107</b> added	<b>751</b> Deaths
		<b>25</b> added

<b>8,493</b> Active Cases	<small>(net of recoveries and deaths)</small>
------------------------------	---

<b>896</b> Asymptomatic	<b>638</b> Pending Admission Status	<b>145</b> Admitted	<b>113</b> Home Isolation
<b>7,520</b> Mild	<b>6,058</b> Pending Admission Status	<b>1,334</b> Admitted	<b>128</b> Home Isolation
<b>52</b> Severe		<b>25</b> Critical	

#### Probable Cases As of May 12, 2020

<b>1,782</b> Total Cases	<b>18,703</b> Total Cases
-----------------------------	------------------------------

**SEVERE:** Pneumonia, Difficulty of Breathing  
**CRITICAL:** Intubated

**PROBABLE:** Previously termed as PUIs (mild or critical) with inconclusive or unofficial test results.

**SUSPECT CASES:** Previously termed as PUIs (mild or critical) with no test done or awaiting test results.

## Current Situation

As of 13 May, a total of 11,618 confirmed COVID-19 cases including 772 deaths have been reported in the Philippines.

### Daily reported confirmed COVID-19 cases in the Philippines

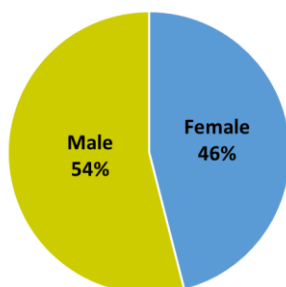

5 March-13 May 2020 (N=11,618)

Among the 11,618 confirmed cases, 6,274 are male (54%) and 5,344 are female (46%). The most affected age groups are 30-39 years (21.2%) followed by 20-29 (16.9%).

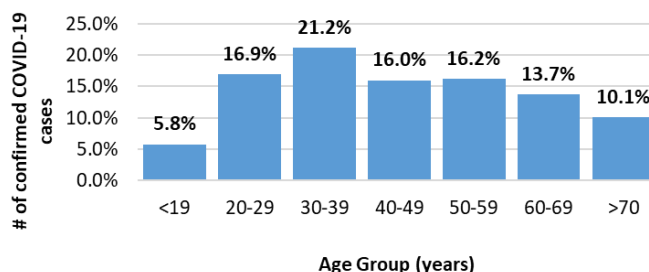

### Gender distribution of confirmed COVID-19 cases in the Philippines in %

18 January-13 May 2020 (N=11,618)

### Age distribution of confirmed COVID-19 cases in the Philippines in %

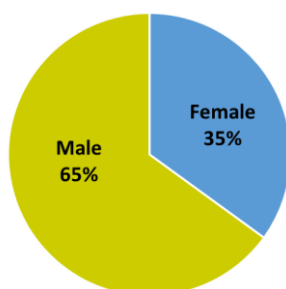

18 January-13 May 2020 (N=11,618)

Out of total 772 confirmed deaths, 65% are male, with most affected age group over 70 years of age (36.2%) followed by 60-69 years (31.7%).

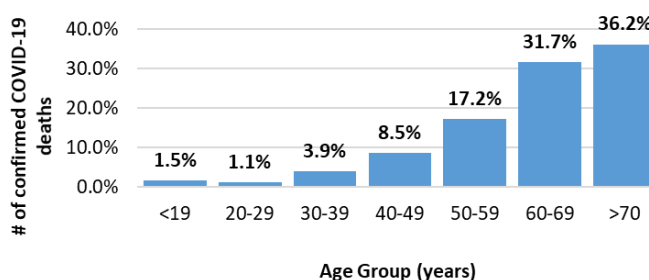

### Gender distribution of confirmed COVID-19 deaths in the Philippines in %

18 January-13 May 2020 (N=772)

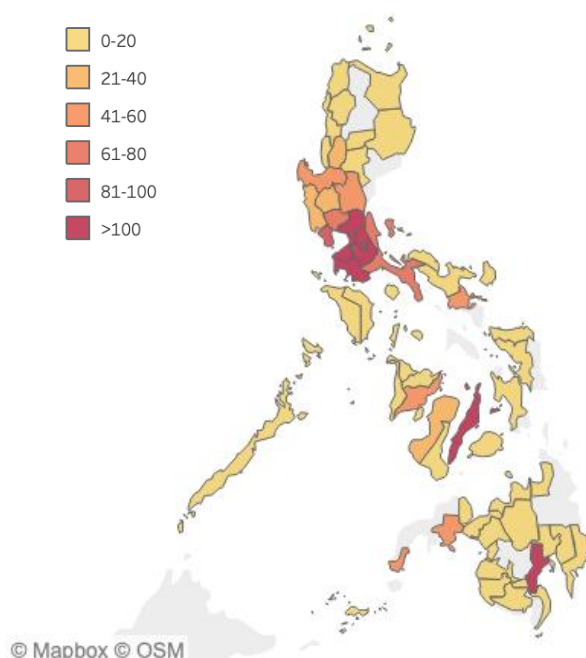

### Age distribution of confirmed COVID-19 deaths in the Philippines in %

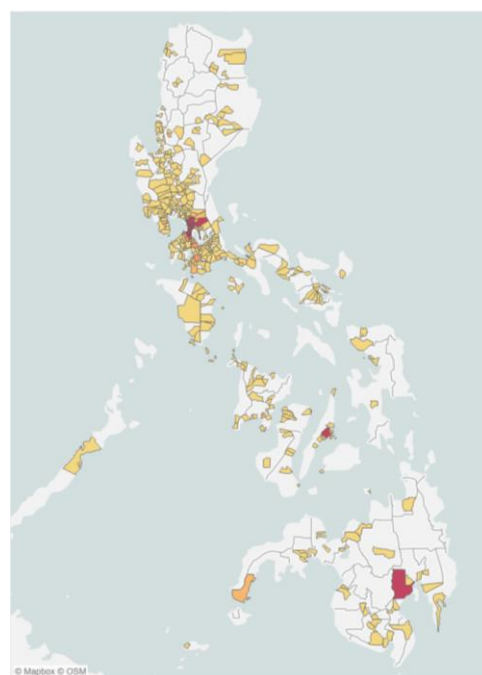

18 January-13 May 2020 (N=772)

**Map of confirmed COVID-19 cases by province**  
18 January-13 May 2020 (N=11,618)

**Map of confirmed COVID-19 cases by city/municipality**  
18 January-13 May 2020 (N=11,618)

## Country readiness and response operations

### Country-level coordination

Following recommendations from the Inter-Agency Task Force for the Management of Emerging Infectious Diseases (IATF-EID), the government has adopted the extension of a modified enhanced community quarantine in NCR, Laguna and Cebu City until 31 May 2020 due to 'high-risk' of COVID-19 spread. The modified enhanced community quarantine allows for limited movement for obtaining essential services and work, the operation of selected manufacturing and processing plants for up to 50% of the workforce and limited transport services for essential goods and services.

The rest of the country is categorized as at 'moderate risk', and will be put under general community quarantine after 15 May (Region II, III, IV-A except Laguna, CAR, VII except Cebu, IX, XI, and XIII) and 'low-risk' to maintain minimum health standards (Region I, IV-B, V, VI, VIII, X, XII, and BARMM).

### Risk communication

Samaritan's Purse WASH teams and ambassadors reached over 6,000 individuals in Iligan City, Lanao del Sur and Tondo Manila with COVID-19 educational messages and hygiene promotion via mobile and digital media. Leader Mothers (LMs) of the Samaritan's Purse Nutrition in Emergency programs educated 208 community members in Lanao del Sur and Tondo, Manila, on the differences between enhanced and general community quarantine. Additionally, they educated the community on the importance of maintaining hygiene and appropriate infant and young child care practices during this time of crisis.

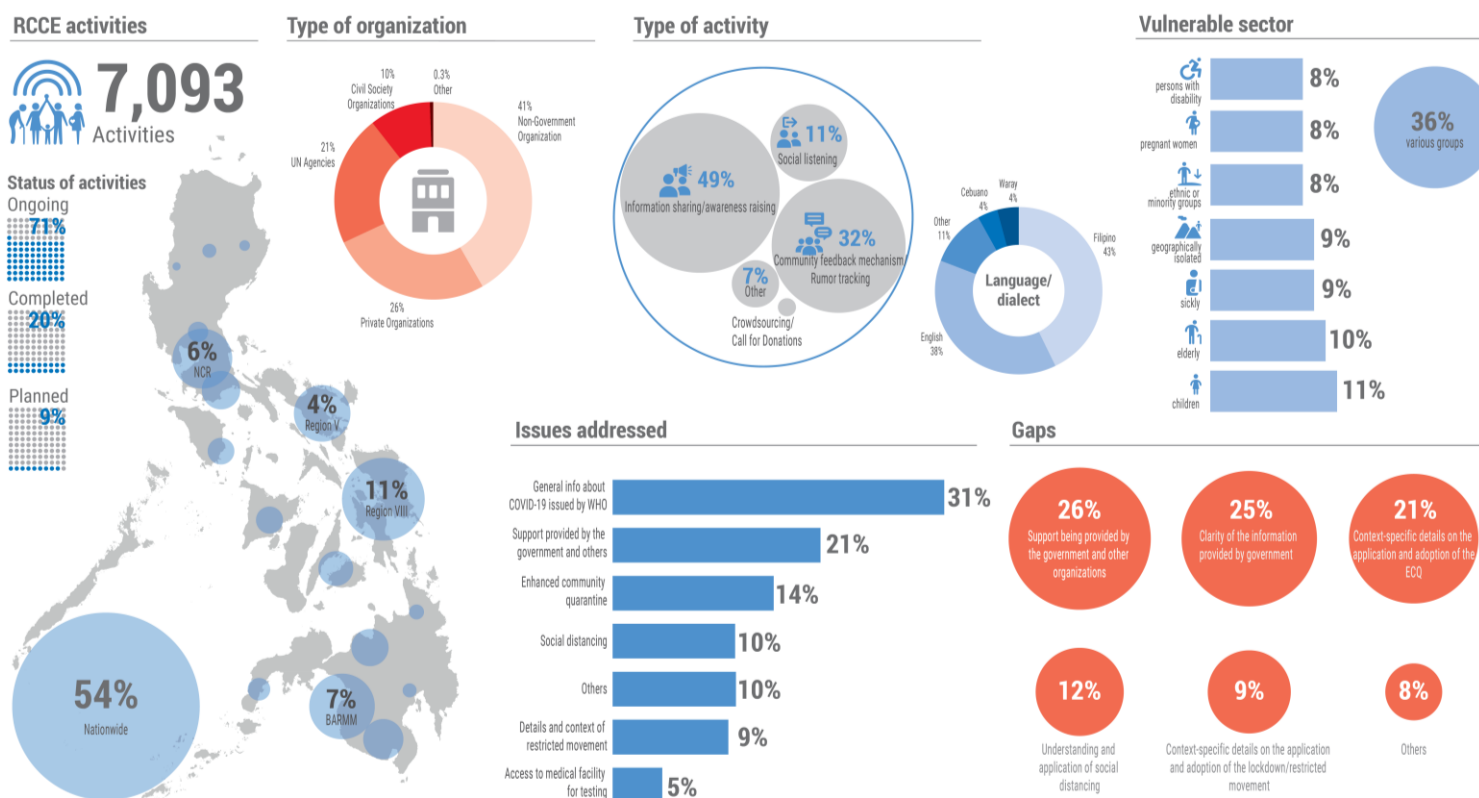

UNICEF continues to disseminate key messages on the crisis of children's rights through international media, as well as on other crucial matters including vaccination amid the pandemic, online safety, and the UNICEF-WHO joint project to launch an online global classroom to help young people learn more about COVID-19.

UNICEF continues to reach audiences with COVID-19 messages through digital platforms with a total reach of 14.1 million, including through its Goodwill Ambassadors Anne Curtis, Daphne Oseña-Paez, and Gary Valenciano who amplify COVID-19 messages through their respective social media channels.

In BARMM and nearby provinces, an additional 122,000 people were reached through radio with COVID-19 core messages; reach now totals 1 million.

UNICEF's proprietary U-Report platform was launched to gather insights from young people on mental health.

The Risk Communication and Community Engagement (RCCE) of the Philippines Humanitarian Country Team (HCT) Community of Practice on Community Engagement (CoPCE) issued its latest snapshot available at: [https://public.tableau.com/profile/ocha.philippines.im#!/vizhome/PHL\\_RCCE\\_COVID19\\_Operational-presence/OCHARCCE](https://public.tableau.com/profile/ocha.philippines.im#!/vizhome/PHL_RCCE_COVID19_Operational-presence/OCHARCCE)

## Surveillance

WHO is supporting the NCR Regional Epidemiological Surveillance Unit (RESU) and the Manila City Epidemiological Surveillance Unit (CESU) with outbreak investigation into clustering of cases in Santa Ana Police station, as well as the assessment of measures imposed on poor urban areas put under hard lock including Tondo and Sampaloc after increase in the number of reported cases.

Additional cases of COVID-19 are reported from prisons in Zamboanga, NCR and Cebu, as well as among police officers. Mandaluyong, Quezon city and Cebu city are continuing to put specific areas with increased number of cases under lockdown.

The WHO-supported, DOH-led contact tracing mobile application COVID KAYA, is now fully launched. Users from all reporting units including barangay health station, rural health units (RHUs), ESUs at municipal, city, province and regional level are now encoding all COVID-19 related data on suspect and confirmed cases as well as contacts, in COVID KAYA. All data has been migrated into the new system, which maintains all functionalities from the previous system. Self-training has been provided and additional training is underway.

### National laboratory system

The list of laboratories certified to conduct COVID-19 testing by DOH expanded to 28. The latest laboratories added are the Asian Hospital and Medical Centre in Alabang, Muntinlupa and the Allegiant Regional Care Hospital in Lapu-Lapu City, Cebu.

In addition, 5 GeneXpert machines are currently accredited for COVID-19 testing in Zamboanga City Medical Centre (Region IX), Lung Center of the Philippines (NCR), Northern Mindanao Medical Center (Region X), Cotabato Regional Medical Center (Region XII) and Ospital ng Palawan (Region IVB)

Thanks to support from the Global Fund, the Philippine Business for Social Progress (PBSP) delivered 16,000 GeneXpert cartridges to the Research Institute for Tropical Medicine (RITM).

### Infection prevention and control

A total of 2,125 health care workers have so far tested positive for COVID-19, including 35 deaths. Besides proper adherence to IPC and PPE use, and the need for special surveillance and contact tracing for health care workers at hospital level, WHO also emphasizes the importance of proper rest for health care workers. Physical and mental exhaustion are attributed to an increased risk of complacency with proper precautionary measures.

UNICEF has so far trained 3,021 health and community workers with its online IPC trainings for home and community settings. Training are continuing and anyone can sign up for free at <https://forms.gle/WAVzGvMFC4geofdU9>.

UNICEF also organizes regular webinars on Cleaning and Disinfection for LGUs and Communities. Anyone can sign up for free at [https://unicef.zoom.us/webinar/register/WN\\_nPRF-cDV8R9mC1soQjOCjTQ](https://unicef.zoom.us/webinar/register/WN_nPRF-cDV8R9mC1soQjOCjTQ)

In BARMM, UNICEF provided training to almost 500 frontline health workers on IPC and 20 additional handwashing stations.

The USAID-funded Medicines, Technologies, and Pharmaceutical Services (MTaPS) program trained 3,181 hospitals workers on IPC and 769 on health care waste management. Training are continuing and anyone can sign up for free at [landing page for the virtual training](#)

The Australian Embassy through its partnership with UNFPA hopes to deliver 130,000 sets of PPE to BARMM READI soon.

Americares distributed an additional 8,700 N95 masks to health facilities in Cebu (San Remigio, Tabuelan, Medellin, Daanbantayan, Borbon, and Sogod RHUs), Region 8 (Samar Provincial Hospital, Abuyog, Ormoc, and Carigara District Hospitals in Leyte, and MacArthur and Jaro RHUs in Leyte) and NCR (Philippine General Hospital).

Americares also provided 1 gallon of disinfectant alcohol to 6 RHUs in Northern Cebu, as well as 3 thermal scanners, 60 face shields and 3 oxygen tanks with accessories to Ormoc and Carigara District Hospitals and Leyte town RHU in Leyte Province, covered by its DRR Project -Enhancing Health Sector Resilience in Leyte Province.

Americares distributing PPEs to health facilities in Cebu and Region 8

### Case management and continuity of essential services

Samaritan's Purse Philippines started construction of three emergency quarantine facilities in Manila and Caloocan City. Two facilities will be put up in Tondo, with a 20-bed capacity each, as requested by the Manila Mayor. The Tondo facilities will be set up in the Tondo High School Campus in Barangay 123 and will serve for mass testing, isolation and treatment of patients for the Santa Ana and Ospital ng Maynila hospitals.

The Caloocan City facility is a 16-bed capacity unit, serving as isolation and treatment centre for the Caloocan North Medical Center and the Caloocan Drug Rehab Center, designated as COVID-19 testing and treatment centers.

Samaritan's Purse provided 100 mattresses to the Philippine General Hospital (PGH) for use by medical personnel during off duty hours, as well as 50 mattresses to Caloocan City.

Samaritan's Purse's Protection team launched a series of online information and education campaigns and safety tips for at-risk children during the lockdowns. The program also launched an online webinar on Mental Health and Psycho-Social Support for its local partners. These initiatives benefited 2,726 individuals

UN agencies are providing support to DOH to conduct assessment on HIV programs during the COVID-19 crisis (ARV stockouts, interrupted services).

The Council for the Welfare of Children (CWC) and UNICEF conducted an adolescent health webinar for teachers, parents, and child rights advocates focusing on mental health and well-being during COVID. The activity ranked in a total of 1,090 Zoom attendees and over 10,000 viewers on Facebook with participants who were adolescents, service providers (teachers, government employees, health service providers, social service personnel, etc.), and from the non-government sector. Resource persons were tapped from the academe, clinical practice, civil society organizations, and government agencies (CWC and DepEd).

**COVID-19 EMERGENCY RESPONSE**

Update as of May 7, 2020

Scaling up preventive measures to limit the spread of COVID-19

- 19,872 individuals receive sanitation kits
- 3.2 million people reached through mass media, face-to-face orientation and distribution of awareness materials
- Families were provided with:
  - 49,680 masks
  - 4,968 500ml alcohol
  - 49,680 bath soaps

Support children impacted by COVID-19 through education, child protection, food and livelihoods

- 41,900 individuals benefited from the distribution of 33,800kg of mixed fresh vegetables
- 1,600 packs, with 30 packets each, of micronutrient or food supplement distributed

Strengthen health systems and workers

- 17 isolation tents (42sqm each), set up
- 2 mobile treatment or isolation units (320sqm each), provided
- 573 disinfectant kits given to health facilities
- 9,486 frontliners were provided with PPEs
- 18,340 n95 and surgical masks
- 91,700 pairs of gloves
- 183,400 surgical caps

Unconditional cash transfers

IEC materials on parenting and protection

## Resource mobilization

### Grant

Overall donations received to date (data compiled by OCHA):

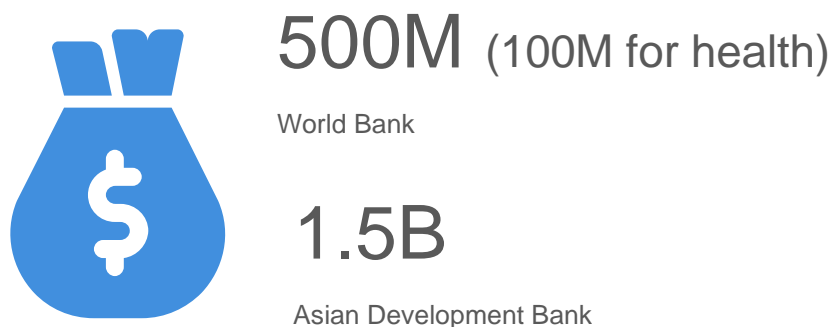

Please see for details of all items distributed so far by DOH: <https://bit.ly/DOHCommDistribution>.

As of 8 May, WHO received more than US\$ 536.5 million and an additional US\$ 198.5 million in pledges to its global appeal. This includes €114 million from the European Union to support 80 priority countries with weakened health care systems and capacity including the Philippines.

The French government through its Development Agency AFD donated €2 million to fight COVID-19 in Southeast Asia.
